Controller/Transfer Pricing Analyst

Become an Operational Transfer Pricing Expert and make a difference in an environment of new technologies and digitalization.

Optravis LLC

Optravis is the provider of leading software solutions for operational Transfer Pricing Management.

We have pioneered the transition from complex business process outsourcing (BPO) to effective business process digitalization (BPD).

Our clients are multinational companies with production and distribution sites spread all over the world.

Job Description

As a key member of the Business team you will help our clients to digitalize existing operational transfer pricing processes and to reduce cost and complexity of cross-border trade.

You will partner with our developers to plan, build examples and determine specific requirements to further develop our software solution.

New challenges are waiting for you at Optravis

- Support clients during the implementation projects of our Transfer Pricing Software solution
- Analyze client business processes and build customized models in the area of operational transfer pricing
- Take over responsibility as project-manager
- Training and coaching of clients
- Present our product to potential new customers
- Consult companies from different sectors and industries in transfer pricing related issues

Your Experience includes

- You can familiarize yourself quickly and structured with new topics
- Several years of professional experience in consulting or manufacturing industry with focus on transfer pricing, corporate accounting, cost- or sales controlling
- Preferable knowledge in cost accounting / management, transfer pricing, (regulatory) reporting or planning
- Initial experience as a (sub)-project-manager or in the supply process is an advantage
- Strong analytical and conceptual skills combined with readiness of mind
- Exceptional presentation and communication skills
- Ability to effectively prioritize tasks and meet deadlines
- Fluency in English, written and oral, German written and oral desirable
- Experience in one of the following SAP modules is not a must but a major advantage: SAP Profitability & Performance Management (PaPM), SAP Financial Performance Management (FS-PER), SAP Business Warehouse/BW, SAP FI/CO, SAP S/4HANA Finance, SAP Business Planning and Consolidation (SAP BPC), SAP Profitability and Cost Management (SAP PCM)
- Ability to travel international and to work in a multicultural and international team
- Bachelor's, Master's or Ph.D. degree in Economics, Finance, Business Administration or Management
- Several years of prior work experience in Controlling (operational TP know-how is an advantage)
- EU/EFTA/CH passport complete your profile

Working at Optravis offers you

- To become part of a small expert team with global reach and impact
- Competitive Salary
- Further training which will focus on the development of your personal skills and product knowledge related to our software solutions
- Central office location in Basel
- Start-up spirit (coffee, fresh fruits and regular team events 😊)
